ONE ACROSS

The VIP lounge for the finals match of IPL (cricket) has only 3 spots. Due to a flaw in booking reservations, the organizers accidentally gave the 3 spots to 9 people. The 9 people, in order of their booking dates, are named a_1 , a_2 , a_3 , a_4 , a_5 , a_6 , a_7 , a_8 , and a_9 .

After some deliberation, the organizers decided that the 3 lucky people will be chosen randomly from a lottery spin, but no two people can be chosen whose booking dates are directly before or after each other.

Count the total number of ways to assign the 3 spots.

ONE DOWN

After the end of a season, the IPL board distributes 4 awards, one for each role: best batter, best baller, best field and best captain. These prestigious are awarded among 3 franchises: Mumbai Indians, Chennai Super Kings, and Kolkata Knight Riders.

If each franchise must receive at least one award, then in how many ways can the awards be distributed?

TWO DOWN

In a T20 powerplay, 6 bowlers share exactly 9 overs between them. Each bowler must bowl at least 1 over and at most 5 overs.

If W is the number of ways to assign the 9 overs to the 6 bowlers (the bowlers are distinguishable, but overs within a bowler's spell are not), then what would be the value of W ?

THREE ACROSS

Six cricket teams are seated in a circle for the IPL opening ceremony, each wearing one of 3 jersey colors: blue, yellow, or red. Tournament rules mandate that no two teams seated next to each other may wear the same color.

Find the total number of valid color arrangements.
